Preface

This third edition of the Catalogue of Publications brings up-to-date (to November, 1964) and revises the listings contained in the second edition published in 1960 and the supplement published in 1962.

Among the new features of the third edition is the combined Title, Subject and Commodity Index, which replaces the former separate title, commodity and subject indexes. All title changes, new titles and discontinued titles which have occurred since the publication of the earlier catalogues are listed in the main body of the catalogue and in separate sections. This feature presents the user with a picture of the developments that have taken place in the DBS publication programme over this period of time.

This catalogue also contains a list of the 1961 Decennial Census publications, and, in addition, incorporates the changes in the publications of the Industry Division that resulted from the adoption of the revised Standard Industrial Classification.

In order to provide the user with a record of the publications which have been allotted catalogue numbers, titles have been retained even if they are out-of-print or superseded by later editions; in these instances the user is directed to other publications. Publications in these categories can be consulted in large public and university libraries which are depositories of Canadian Government publications, or in the library of the Dominion Bureau of Statistics where a historical collection is on file.

W. E. DUFFETT,
Dominion Statistician.

Préface

La présente est la troisième édition du *Catalogue des publications*; elle met à jour (novembre 1964) et revise les répertoires contenus dans la seconde édition, publiée en 1960, et dans le *Supplément*, publié en 1962.

La troisième édition comporte une innovation en ce qu'elle réunit le titre et les matières en un index unique qui remplace les deux indices (titres et analytique) antérieurs. Tous les changements intervenus depuis la publication du catalogue précédent, de même que les titres ajoutés et les titres discontinués, sont inscrits dans le corps principal du catalogue et dans des parties à part. Cette innovation donne à l'utilisateur un tableau des transformations qu'a subies le programme de publication du B.F.S. depuis 1960.

Le catalogue contient aussi le répertoire des publications de recensement décennal de 1961 et incorpore, en outre, les modifications apportées aux publications de la Division de l'industrie, à la suite de l'adoption de la Classification type révisée des industries.

En vue de fournir à l'utilisateur un dossier des publications portant un numéro de catalogue, les titres en ont été retenus même si ces publications sont épuisées ou remplacées par des éditions nouvelles; dans ces cas, l'utilisateur est référé à d'autres publications, qu'on peut consulter dans les grandes bibliothèques publiques et universitaires, qui sont les dépositaires des publications du gouvernement du Canada, ou à la bibliothèque du Bureau fédéral de la statistique qui conserve une collection chronologique de ces ouvrages.

Le statisticien du Dominion,
WALTER E. DUFFETT.

INTRODUCTION

The **Dominion Bureau of Statistics** is a centralized national statistical organization and as such collects, compiles and publishes statistical data relating to a wide range and variety of the economic and social activities and conditions of the Canadian people.

Functions of the Bureau

The **Dominion Bureau of Statistics** was established in 1918 under the *Statistics Act* (S.C., 1918, c. 43) to form a central statistical department. It now operates under the *Statistics Act* of 1948 (R.S.C., 1952, c. 257, amended by S.C., 1952/53, c. 18), which defines its duties as follows:

- (a) to collect, compile, analyse, abstract and publish statistical information relative to the commercial, industrial, financial, social, economic and general activities and conditions of the people;
- (b) to collaborate with all other departments of the government in the collection, compilation and publication of statistical records of administration according to any regulations;
- (c) to take the census of Canada as provided in this Act; and
- (d) generally to organize a scheme of co-ordinated social and economic statistics pertaining to the whole of Canada and to each of the provinces thereof.

Organization and Telephone Directory

The Dominion Bureau of Statistics is organized into a Central Administrative Staff, a Central Research Staff, and eighteen functional divisions. The eighteen functional divisions comprise fourteen statistical divisions, plus a Tabulating Services Division, a Central Programming Division, an Information and Public Relations Division, and the Canada Year Book, Handbook and Library Division. The statistical divisions—each of which consists of two or more sections—and the Information and Public Relations Division are responsible for the preparation of the publications shown in this catalogue. The names of these divisions and sections indicate the range of statistical information available from DBS.

The following directory is designed to facilitate contact by users of DBS material with Bureau officers. General enquiries should be directed to the Information and Public Relations Division, while requests for copies of specific publications should be directed to Publications Distribution. Enquiries concerning the details about particular statistics should be directed to the appropriate division.

Persons telephoning from points outside Ottawa should first call 232-8211 and then ask for the local number wanted. For the convenience of direct distance dialers, the Ottawa area code number is "613". Those calling from Ottawa should dial "99" followed by the local number.

REGIONAL OFFICES

In addition to the Ottawa main staff, the DBS has eight regional offices located at St. John's, Halifax, Montreal, Ottawa, Toronto, Winnipeg, Edmonton and Vancouver, where reference copies of all DBS publications are on file. The staffs in these offices are ready at all times to handle local inquiries, supplying the information when possible or forwarding the inquiry to headquarters at Ottawa.

Publications

The Bureau's publication program is designed to make its statistical information readily available in the form in which it is most frequently wanted. This catalogue of publications contains approximately 1,000 titles and all are available for purchase except where as indicated, they are out-of-print. Their distribution is based on the policy of sale at cost of printing; costs of compilation are not included in the prices.

It is obviously impossible to publish compilations of statistics that will serve every purpose or need, and the Bureau is always ready to meet requests for statistical information not contained in any of its publications by the supply of available data from its files. A charge based on processing time involved is made for this service when it requires more than brief research and compilation.

BUREAU FÉDÉRAL DE LA STATISTIQUE

System of Classification and Listing

Under the Dominion Bureau of Statistics system of cataloguing its publications each publication is assigned a *five-digit* catalogue number which is printed in large type in the upper left-hand corner of the front cover. These catalogue numbers are a permanent means of identification, additional to the title.

This use of catalogue numbers on DBS publications is in line with suggestions made by various large users of Bureau publications; for these, and others, it should facilitate and simplify both the ordering and filing of Bureau publications. Besides this, the DBS Library has developed an expanded classification for use in a historical collection of DBS publications.

Formation of Five-Digit Catalogue Numbers

First Digit: Under the grouping arrangement, all DBS publications are classified into 9 major subject groups, as follows: (1) General; (2) Primary Industries; (3) Manufacturing; (4) Manufacturing (concluded); (5) Transportation, Communications and Utilities; (6) Commerce, Construction, Finance and Prices; (7) Employment, Unemployment and Labour Income; (8) Education, Health and Welfare; and (9) Census, Population Estimates and Immigration. Thus, the first digit in the catalogue number ranges from 1 to 9.

Second Digit: Each of the above 9 major groups is further divided into 1 to 9 sub-groups as required. *An example:* Major group 3 (Manufacturing) is divided into six sub-groups—(1) General Survey; (2) Foods, Beverages and Tobacco; (3) Leather and Rubber Products; (4) Textiles and Apparel; (5) Wood Products; (6) Paper Products and Printing. Numbers 7, 8 and 9 have not been allotted and will provide for possible future sub-groups.

Third Digit: The third digit indicates frequency of publication as follows: "0" and "1", issued more than once a year; "2" and "3", annuals; "4" biennials; and "5", occasional publications.

Fourth and Fifth Digits: The fourth and fifth digits are used to give each title its own permanent number. The numbers are allotted in chronological sequence as new titles are published.

Example Catalogue Number: The following is a typical example of the application of the above cataloguing system: Catalogue number 31-002 has been assigned to DBS report entitled "New Manufacturing Establishments"—

- 3—Manufacturing (Major Grouping)
- 1—General Survey (Minor Grouping)
- 0—Periodical (in this case, semi-annual)
- 02—Second Title in this particular grouping

Publications within these number ranges are listed approximately in alphabetical order of titles, although this order cannot be maintained for new titles subsequently added.

DOMINION BUREAU OF STATISTICS

The main features of the new grouping arrangement including code numbers of main subject groups and specific sub-groups are shown in the *Table of Contents* on page v. *These groupings do not coincide with the Bureau's divisional organization and division titles are of no assistance in ordering or cataloguing DBS publications.*

Title, Subject and Commodity Index

Appended to this catalogue is a *Title, Subject and Commodity Index* (beginning on page 184). It is designed to provide a guide in the selection of the publication or publications containing statistics on a given subject or commodity. The index contains several thousand entries arranged in alphabetical order, with corresponding catalogue numbers.

SELECTING AND ORDERING PUBLICATIONS

The descriptive notes given with each title or group of titles listed are intended to serve only as a guide to their contents. They should be sufficient, in most cases, to help in selection of publications for any specific purpose. If in doubt, contact the **Information and Public Relations Division, Dominion Bureau of Statistics, Ottawa** or your nearest DBS Regional Office (*see* list page xii), stating your requirements as precisely as possible.

HOW TO ORDER.—When ordering, catalogue numbers and titles of publications should be quoted.

Subscription orders for weekly, monthly, quarterly and annual reports should be sent to **Publications Distribution, Dominion Bureau of Statistics, Ottawa.**

Orders for single copies of periodical reports and for other regular and special reports may be sent either to **Publications Distribution, Dominion Bureau of Statistics**, or to the **Queen's Printer, Ottawa**. Such orders should state the date (month, year, etc.) of the issue wanted.

HOW TO MAKE PAYMENT.—Regulations require that remittance be made prior to the servicing of subscriptions to periodical publications or the mailing of single issues. Purchasers of subscriptions or of individual issues of publications will avoid delay and save time and labour for all concerned by including remittance with their order. This catalogue contains all the information needed to determine the required amount of a remittance.

Note.—*The practice of allowing discounts on orders of various titles was discontinued some time ago and charges for publications are now the sum of the listed prices, with one exception. A discount of 25% is allowed on bulk orders of 100 or more copies of an individual publication, but such orders should normally be placed in advance of printing. Individuals or corporations requiring this Bureau's current Full Publications Service may purchase it on a quoted annual price approximately the total of the prices listed therein, with the assurance that new DBS publications appearing during the year will be supplied automatically without additional charges.*

Remittances should be in the form of cheque or money order made payable to the **Receiver General of Canada**. Bank exchange fee is not necessary. Postage stamps and currency should not be used; apart from being banned by postal regulations, no record exists if remittance in this form is lost or inadvertently omitted.

BUREAU FÉDÉRAL DE LA STATISTIQUE

To avoid sending small individual remittances those who expect to purchase publications regularly may open a deposit account with the Queen's Printer. Deposits of \$10.00 or more are accepted against which orders may be placed. Orders are charged to the account with regular statements forwarded by the Queen's Printer.

No charge additional to the listed price is made for postage on publications sent to points in Canada, the United States, and Mexico. When publications are mailed to other countries, approximately 30% is added to the selling price to cover cost of postage. A price list showing foreign subscription rates will be supplied on request.

FREE DISTRIBUTION.—The **Queen's Printer** is authorized to supply one copy of any official publication free of charge, on request, to an officially specified list of persons and institutions (including depository libraries, university libraries, Senators and Members of the Parliament of Canada, etc.). Such persons or institutions may obtain free one copy of a current publication of the Government of Canada by checking and returning the *Daily Checklist* issued by the **Queen's Printer**. Inquiries regarding this authorized free distribution of publications of the **Dominion Bureau of Statistics** should be addressed to the **Queen's Printer**.

REFERENCE COLLECTIONS.—The Bureau's current publications are available for consultation at the **National Library, Ottawa**, at each of the Provincial Legislative Libraries, at the libraries of universities in the ten provinces of Canada, at the larger public libraries, and in DBS regional offices listed on page xii. A complete collection of the Bureau's publications, since its founding in 1918, is on file in the **Library of the Dominion Bureau of Statistics, Tunney's Pasture, Ottawa**.

INTRODUCTION

Le **Bureau fédéral de la statistique** est un organisme national centralisé de statistique et, à ce titre, il recueille, établit et publie des données statistiques des plus variées concernant l'activité économique et sociale des Canadiens.

Fonctions du Bureau

Le **Bureau fédéral de la statistique** a été créé en 1918 en vertu de la *loi sur la statistique* (S.C., 1918, chap. 43) afin d'instituer un bureau central de statistique. Il est maintenant régi par la *loi de 1948 sur la statistique* (S.R.C., 1952, chap. 257, modifié par S.C. 1952/1953, chap. 18), qui détermine ses devoirs, comme il suit:

- a) recueillir, établir, analyser, résumer et publier des renseignements statistiques sur les mouvements commerciaux, industriels, financiers, sociaux, économiques et généraux, et sur la condition de la population;
- b) collaborer avec tous les autres départements de l'État à la réunion, à l'établissement et à la publication de relevés statistiques d'administration, suivant les règlements;
- c) opérer le recensement du Canada, de la manière prévue à la présente loi; et
- d) généralement, organiser un système de statistiques sociales et économiques coordonnées, concernant le Canada tout entier et chacune de ses provinces.

Organisation et numéros de téléphone

Le Bureau fédéral de la statistique comprend un Personnel central d'administration, un Personnel central de la recherche et dix-huit divisions fonctionnelles.

Les dix-huit divisions fonctionnelles englobent quatorze divisions de statistique, plus la Division des Services de calculs, la Division centrale de la programmation, la Division de l'information et des relations extérieures et, enfin, la Division de l'Annuaire du Canada, du *Canada* et de la bibliothèque. Les divisions de statistique, dont chacune compte au moins deux sections, et la Division de l'information et des relations extérieures sont chargées de préparer les publications énumérées dans le présent catalogue. Les noms de ces divisions et sections indiquent l'étendue de la gamme de données que l'on peut obtenir du B.F.S.

Le répertoire qui suit est destiné à faciliter les communications entre les utilisateurs des publications du B.F.S. et les fonctionnaires du Bureau. Les demandes générales de renseignements doivent être adressées à la Division de l'information et des relations extérieures tandis que les demandes d'exemplaires de certaines publications doivent être adressées à la Distribution des publications. Les demandes de détails quant à certaines statistiques particulières doivent être adressées à la division appropriée.

Les personnes qui téléphonent de l'extérieur de la capitale doivent d'abord demander ou signaler le numéro 232-8211 et ensuite demander le poste qu'elles désirent. Pour la commodité des personnes qui font appel par composition interurbaine directe, le code régional d'Ottawa est «613». Celles qui appellent d'Ottawa doivent signaler «99» suivi du numéro du poste.

DOMINION BUREAU OF STATISTICS

Bureau régionaux

En plus de son siège principal à Ottawa, le B.F.S. compte huit bureaux régionaux situés à St-Jean (T.-N.), Halifax, Montréal, Ottawa, Toronto, Winnipeg, Edmonton et Vancouver, où se trouvent des exemplaires de toutes les publications du Bureau pour fins de consultation. Le personnel de ces bureaux se tient à la disposition de tous ceux qui désirent des renseignements et les leur fournit quand il le peut ou transmet leurs demandes à Ottawa.

Publications

Le programme de publications du Bureau vise à présenter les renseignements statistiques disponibles sous la forme la plus communément demandée. Le catalogue des publications régulières comprend environ 1,000 ouvrages que tous peuvent acheter sauf là où, ainsi qu'il est indiqué, ils sont épuisés. La mise en vente est fondée sur le principe que l'acheteur ne paie que le papier et le travail d'impression; les prix ne comprennent pas les frais de rédaction.

Il est évidemment impossible de publier des statistiques qui donnent pleine satisfaction et le Bureau est toujours disposé à fournir, d'après les données disponibles dans ses dossiers, des renseignements statistiques qui ne sont contenus dans aucune de ses publications. Une compensation évaluée d'après le temps requis pour les établir est imposée pour ce service, à moins que la recherche et les calculs ne soient brefs.

BUREAU FÉDÉRAL DE LA STATISTIQUE

SYSTÈME DE CLASSIFICATION ET DE CATALOGUE

Le Bureau fédéral de la statistique a inauguré en 1959 un nouveau système de catalogage de ses publications régulières. Dorénavant, chaque publication portera au catalogue un numéro de *cinq chiffres* imprimé en gros caractère dans l'angle supérieur gauche de la couverture. En plus du titre, ces numéros constituent un moyen permanent d'identifier les publications.

Ce numérotage répond aux désirs exprimés par divers utilisateurs importants des publications du B.F.S. et devrait leur faciliter et simplifier tant la commande que le classement des publications. En outre, la bibliothèque du B.F.S. a établi une classification élargie devant servir à une collection chronologique des publications du Bureau.

Formation des numéros du catalogue à cinq chiffres

Premier chiffre: En vertu de la nouvelle articulation, toutes les publications du B.F.S. sont classées en 9 grands groupes: (1) Général; (2) Industries primaires; (3) Fabrication; (4) Fabrication (fin); (5) Transports, communications et services d'utilité publique; (6) Commerce, construction, finances et prix; (7) Emploi, chômage et revenu de la main-d'œuvre; (8) Éducation, santé et bien-être; et (9) Recensement, estimations de la population et immigration. Ainsi, le premier chiffre du numéro de catalogue va de 1 à 9.

Deuxième chiffre: Chacun des 9 grands groupes ci-dessus se subdivise en sous-groupes numérotés de 1 à 9 au besoin. Exemple: le grand groupe 3 (Fabrication) se divise en six sous-groupes—(1) Revue générale; (2) Aliments, boissons et tabac; (3) Articles en cuir et en caoutchouc; (4) Textiles et vêtements; (5) Articles en bois; (6) Articles en papier et impression. Les numéros 7, 8 et 9 n'ont pas été attribués et permettront l'addition future d'autres sous-groupes.

Troisième chiffre: Le troisième chiffre indique la périodicité des publications comme il suit: «0» et «1», publiée plus de deux fois par année; «2» et «3», annuelle; «4» biennale; et «5», publication irrégulière.

Quatrième et cinquième chiffres: Le quatrième et le cinquième chiffres donnent à chaque titre son numéro propre et permanent. Les numéros sont attribués dans l'ordre chronologique à mesure que de nouveaux titres sont publiés.

Exemple de numéro de catalogue: Voici un exemple typique de l'application du système de classement ci-dessus: le numéro de catalogue 31-002 a été attribué au rapport du B.F.S. intitulé *Nouveaux établissements manufacturiers*—

3—Fabrication (grand groupe)

1—Revue générale (sous-groupe)

0—Périodique (dans ce cas, semi-annuel)

02—Second titre dans ce groupement particulier

Les publications contenues dans ces groupes de chiffres suivent à peu près l'ordre alphabétique des titres bien que cet ordre puisse être rompu par l'addition de nouveaux titres.

DOMINION BUREAU OF STATISTICS

Les grandes lignes de la nouvelle classification, y compris les numéros de code des principaux groupes et sous-groupes, figurent à la *Table des matières* page v. Les groupes ne correspondent pas à l'organisation des divisions du Bureau et le nom de la division n'est d'aucun secours lorsqu'il s'agit de commander ou de cataloguer les publications du B.F.S.

Index du titre, du sujet et de l'article: On a ajouté au présent répertoire un *Index des titres et des matières* (page 184). Il est établi de façon à guider le lecteur dans le choix des publications qui contiennent la statistique sur un sujet donné ou sur une denrée particulière. L'index contient plusieurs milliers d'inscriptions classées par ordre alphabétique et suivies des numéros correspondants au catalogue.

CHOIX ET COMMANDE DE PUBLICATIONS

Les notes descriptives données avec chaque titre ou groupe de titres du Catalogue ne servent qu'à indiquer le contenu des publications. Elles devraient, dans la plupart des cas, faciliter le choix des publications pour toutes fins déterminées. En cas de doute, communiquer avec la Division des services d'information et des relations extérieures, Bureau fédéral de la statistique, Ottawa, ou avec votre bureau régional du B.F.S. le plus près (*voir* page xx) et faire connaître vos besoins aussi précisément que possible.

COMMANDES.—En dressant sa commande, il faut mentionner le numéro de catalogue et le titre des publications.

Les commandes d'abonnement aux rapports hebdomadaires, mensuels, trimestriels ou annuels doivent être adressées à la **Distribution des publications, Bureau fédéral de la statistique, Ottawa.**

Les commandes d'un seul exemplaire d'un rapport périodique et celles de rapports annuels, réguliers et spéciaux peuvent être adressées soit à la **Distribution des publications, Bureau fédéral de la statistique**, soit à l'**Imprimeur de la Reine, Ottawa**. Ces commandes doivent indiquer la date (mois, année, etc.), des exemplaires désirés.

PAIEMENT.—Les règlements exigent la remise du paiement avant l'envoi des publications périodiques d'un abonnement ou les exemplaires commandés à part. Les acheteurs d'un abonnement ou d'un exemplaire particulier des publications s'éviteront des retards et épargneront du temps et du travail à tous les intéressés en envoyant leur remise avec leur commande. Le catalogue contient tous les renseignements voulus pour établir le montant exact de la remise.

Nota.—La pratique d'accorder un escompte pour les commandes en quantité de différents titres a été discontinuée il y a quelque temps; on devra donc s'en tenir à la somme des prix indiqués. La seule exception est un escompte de 25 p. 100 accordé pour une commande de 100 exemplaires ou plus d'une publication particulière, mais de telles commandes doivent normalement être envoyées avant l'impression. Les particuliers et les groupes constitués qui désirent obtenir le service de toutes les publications courantes du Bureau peuvent se le procurer moyennant un prix annuel fixe qui représente à peu près la somme des prix indiqués, avec l'assurance toutefois qu'ils recevront automatiquement et sans frais supplémentaires toute nouvelle publication du B.F.S. qui paraîtra au cours de l'année.

BUREAU FÉDÉRAL DE LA STATISTIQUE

Les paiements se font par chèque ou par mandat au nom du **Receveur général du Canada**. Il n'y a pas de frais d'échange pour les chèques. On ne doit envoyer ni timbres-poste ni argent, pratique qui est déconseillée par les règlements de la poste et ne laisse aucune preuve si la remise se perd ou est omise par mégarde.

Pour éviter l'envoi de petites remises, les personnes qui prévoient commander régulièrement certaines publications peuvent ouvrir un compte de dépôt chez l'Imprimeur de la Reine moyennant un versement de \$10 ou plus. Les commandes seront portées au débit du compte, dont l'Imprimeur de la Reine enverra un relevé régulièrement.

L'expédition postale des publications au Canada et aux États-Unis ne comporte pas de frais supplémentaires. Pour leur expédition postale à l'étranger, il faut ajouter 30 p. 100 du prix de vente pour les frais de port. Une liste de prix des abonnements à l'étranger sera envoyée sur demande.

DISTRIBUTION GRATUITE.—L'Imprimeur de la Reine est autorisé à envoyer gratuitement, sur demande, un exemplaire de toute publication officielle aux personnes et institutions dont le nom figure à la liste officielle (y compris les bibliothèques de dépôt, les bibliothèques universitaires, les sénateurs et les députés au Parlement du Canada, etc.). Ces personnes ou institutions peuvent obtenir leur exemplaire gratuit d'une publication régulière du Gouvernement du Canada en la pointant dans la *Liste quotidienne* publiée par l'Imprimeur de la Reine et en lui renvoyant cette liste. Les demandes de renseignements concernant la distribution gratuite des publications du **Bureau fédéral de la statistique** doivent être adressées à l'Imprimeur de la Reine.

COLLECTIONS DE CONSULTATION.—Les publications régulières du Bureau peuvent être consultées à la **Bibliothèque nationale, Ottawa**, à la bibliothèque de la Législature de chaque province, aux bibliothèques des universités des dix provinces du Canada, aux grandes bibliothèques publiques et aux bureau régionaux du B.F.S. indiqués à la page xx. La collection complète des publications du Bureau, depuis sa fondation en 1918, est conservée à la **bibliothèque du Bureau fédéral de la statistique, Tunney's Pasture, Ottawa**; elle est à la disposition des chercheurs d'un aspect quelconque de la démographie et de l'économie du Canada.

3: MANUFACTURING — MANUFACTURES

Description of Reports

Publications listed under Manufacturing (Major Groups 3 and 4) are in general accord with the revised *Standard Industrial Classification*, upon which the annual Census of Manufacturers has been based since 1960. The adoption of the revised SIC has resulted in a substantial number of changes in the catalogue listing of individual industry reports. These changes fall into three main classes: (1) New Titles (see full list on page 156; (2) Discontinued Titles (see full list on page 170), and (3) Title Changes (see full list) on page 162.

These publications consist of a number of periodic and annual reports which provide summarized and analytical information for manufacturing as a whole as well as an extensive series of annual reports on individual manufacturing industries. In addition, a number of monthly, quarterly and semi-annual reports which deal with certain commodities are listed.

Although the titles of the various reports are broadly indicative of the subject matter covered, explanatory notes have been included under title headings where necessary. Such notes are generally restricted to periodic or annual reports dealing with manufactures as a whole (sub-group 31) and to those periodic publications dealing with commodities. The annual reports on individual industries are generally similar in character and present the following principal statistics on the industry dealt with: number of establishments, average number of employees, salaries and wages, cost of fuel and electricity, cost of materials used, selling value of factory shipments and value added by manufacturing. Comparative statistics of this nature are given by province and Canada for earlier years.

Further detail is also given on the number of wage-earners by function, by sex and by months; fuel by kinds and electricity purchased and used (quantity and cost); power equipment; quantity and costs of various materials used; major products shipped with values f.o.b. establishment and quantity (where applicable).

Owing to the fact that annual surveys cannot be initiated until the end of the calendar year, as well as the time required to collect, edit and compile the extensive data presented, the annual industry reports are not usually available until a year or more after the end of the year reviewed. However, it should not be assumed that because an annual report (say 1961) for a particular industry is not published that statistics on the operations of the industry for 1961 or later are not available. In many instances the monthly, quarterly or semi-annual publications will frequently contain some of the statistics required. This is particularly the case where the user is concerned with statistics of commodities such as production, shipments, inventories and orders. However, the user of such statistics should be aware of the differences between "industry" and "commodity" data which can result in apparent discrepancies in classification and coverage.

1956 CENSUS

Results of the 1956 Census of Population and Agriculture were published in a series of reports rather than as bound volumes, so that, by removal of the covers, the tables could be placed in loose-leaf binders or bound in volume form. The reports which formed each volume are as follows:

Volume I.	92-501 to 92-514 and 93-501
Volume II.	96-501 to 96-511
Volume III.	99-501 to 99-510

Individual titles are listed in this catalogue, and can be found on the following pages or supplied on request. Copies of those still in print will be supplied in cases where they meet an inquiry.

RECENSEMENT DE 1956

Les résultats du recensement de la population et de l'agriculture de 1956 ont paru dans une série de rapports plutôt qu'en volume, de sorte qu'en enlevant les couvertures, les tableaux peuvent être insérés dans des relieurs à feuilles mobiles ou être reliés en volumes. Les rapports qui ont constitué chaque volume sont les suivants:

Volume I.	92-501 à 92-514 et 93-501
Volume II.	96-501 à 96-511
Volume III.	99-501 à 99-510

Tous les titres sont énumérés dans le présent catalogue, on les trouvera aux pages suivantes de ce catalogue, ou ils vous seront fournis sur demande. Des exemplaires des rapports qui ne sont pas encore épuisés seront fournis en réponse à certaines demandes.

96: Census of Agriculture — Recensement de l'agriculture

A series of ten provincial reports and a summary report for Canada were issued on the results of the 1956 Census of Agriculture. Each report contains information on the number and area of occupied farms, tenure, area of crops, number of live stock, output of dairy products and inventories of farm machinery. Tabulations of this information by size, tenure, and by an economic classification of farms are also shown. Additional tables provide data on certain aspects of farm expenditures and farm labour. Bulletins based on the 1951 Census of Agriculture may be obtained on application.

Les résultats du recensement de l'agriculture de 1956 sont contenus dans une série de dix rapports provinciaux et dans un rapport récapitulatif national. Chaque rapport contient des renseignements sur le nombre et la superficie des fermes occupées, le mode d'occupation, la superficie des cultures, le nombre de bestiaux, la production de laitages et le nombre de machines agricoles. Les mêmes renseignements sont aussi classés selon la grandeur, le mode d'occupation, et la catégorie économique des fermes. Des tableaux sont ajoutés qui donnent des détails relatifs à certains aspects des dépenses et de la main-d'œuvre

1961 CENSUS PUBLICATIONS

Final results of Canada's Tenth Decennial Census of 1961 are issued in the form of individual reports, comprising four main series, as follows:

- (1) **Advance Series.**—These reports provide summary information on specified basic topics for which there is wide demand, and were published earlier than the regular series of volume reports.
- (2) **Volume Series.**—Reports in this series represent the main results of the 1961 Census, and are prepared in such a way that the user can combine the contents to form the subject matter of each volume of the 1961 Census. A hard-covered binder, suitably titled, is supplied to those ordering at one time the complete set of reports for any given volume part.
- (3) **Special Series.**—This series contains some basic materials not included in the regular Volume Series, and which relate for the most part to more detailed geographical areas.
- (4) **Census Tract Series.**—Basic population and housing data are being issued for each of the larger cities (or metropolitan areas) according to census tracts (i.e., areas of approximate uniformity in population size and composition).

This catalogue lists the publications of the 1961 Census issued in each of the foregoing series. In the event that further reports become necessary, they will be issued as supplementary publications in the Special Series, and will be listed in subsequent editions.

Availability of Unpublished Materials

To a limited extent, the Dominion Bureau of Statistics is able to provide on a cost basis certain materials from the 1961 Census which are too detailed or specialized for general publication purposes.

An example of this is the count of population and households for individual enumeration areas (i.e., the areas covered by each enumerator in taking the census). The cost of these mimeographed materials is 50¢ for all enumeration areas in a given electoral district, or \$100 for the complete set of some 30,000 areas in the 263 electoral districts of Canada, including printed descriptions of the boundaries of each enumeration area.

During the intercensal period after the main results of the 1961 Census have been issued, a limited number of other special counts can be compiled on a cost basis. Such materials will be made available only as time and resources permit.

PUBLICATIONS DU RECENSEMENT DE 1961

Les résultats définitifs du dixième recensement décennal du Canada de 1961 sont publiés sous forme de rapports individuels formant quatre séries principales, que voici:

- (1) **Série anticipée.**—Ces rapports donnent des renseignements sommaires sur certaines données fondamentales très en demande; ils sont publiés plus tôt que la série régulière des rapports en volumes.
- (2) **Série des volumes.**—Les rapports de cette série donnent les principaux résultats du recensement de 1961 et se présentent de telle sorte que l'utilisateur peut les réunir et ainsi constituer la matière de chaque volume du recensement de 1961. Un auto-relieur à couverture rigide et portant le titre approprié est fourni à ceux qui achètent la série complète des rapports devant constituer un volume.
- (3) **Série spéciale.**—La série contient des données fondamentales qui ne paraissent pas dans la série régulière des volumes et qui ont trait pour la plupart à des régions géographiques plus détaillées.
- (4) **Série des secteurs de recensement.**—Des données de base sur la population et l'habitation sont publiées pour chacune des grandes villes (ou zones métropolitaines) par secteur de recensement (i.e., étendues à peu près uniformes quant à la taille et la composition de la population).

Le présent catalogue indique les rapports du recensement de 1961 contenus dans chacune des séries mentionnées ci-dessus. Si d'autres rapports doivent être publiés, ils paraîtront à titre de publications supplémentaires dans la série spéciale, et seront mentionnés dans des éditions subséquentes du présent catalogue.

Disponibilité de textes non publiés

Le Bureau fédéral de la statistique peut, dans une certaine mesure, fournir au prix coûtant certains résultats du Recensement de 1961 qui sont trop détaillés ou trop spécialisés pour faire l'objet d'une publication d'ordre général.

Tel est le cas, par exemple, du chiffre de la population et des ménages des divers secteurs de recensement (un secteur est l'étendue dénombrée par chaque agent recenseur). Le prix de textes photocopiés qui renferment ces résultats est de 50¢ pour tous les secteurs de recensement d'un district

BUREAU FÉDÉRAL DE LA STATISTIQUE

électoral ou de \$100 pour l'ensemble des quelque 30,000 secteurs des 263 districts électoraux du Canada, y compris la description imprimée des limites de chaque secteur.

Au cours de la période intercensale, après la publication des résultats principaux du recensement de 1961 un certain nombre d'autres totalisations spéciales pourront s'effectuer au prix coûtant. Ces totalisations ne se feront que si le temps et les ressources du Bureau le permettent.

Census Tract Series

Individual reports in the 1961 Census Tract Series present basic population, housing, and labour force characteristics for statistical areas (i.e., census tracts) delineated within 23 of the larger urban communities and metropolitan areas. Each report contains an index map outlining the locations of these census tracts within the particular city or metropolitan area. (See also Catalogue No. 92-537 in the Volume I series.) In addition, the Census Tract Series includes composite reports for all cities dealing with: (1) the Population Sample; and (2) the Census of Merchandising.

Série des Secteurs de Recensement

Les rapports de la série des secteurs de recensement présentent des données de base sur la population, l'habitation et la main-d'œuvre pour les régions statistiques (i.e., secteurs de recensement) délimitées dans 23 des grandes agglomérations urbaines et zones métropolitaines. Chaque rapport contient une carte qui indique la situation de ces secteurs dans la ville ou la région métropolitaine. (Voir aussi le n° 92-537 au Catalogue dans la série du volume I.) En outre, la série des secteurs de recensement comprend des rapports globaux pour toutes les villes et traitant 1) de l'échantillon de la population, et 2) du recensement du commerce et des services.

• New Titles

Following is a list of new D.B.S. publications issued since the 1960 Catalogue of Current Publications and its 1962 Supplement were published. Many of the new titles in groups 24 to 47 resulted from the changes due to the adoption by D.B.S. of the revised Standard Industrial Classification, effective with the issuance of 1960 Industry Reports.

In cases where new titles involved transfer of data from other titles, a description of the transfer was placed in an explanatory box on the title page. All new titles carry the notation "First Issue" on the first number to be released. See also page 186.

• Nouveaux titres

Voici une liste des nouvelles publications du B.F.S. qui ont paru depuis la publication du *Catalogue des publications courantes* de 1960 et de son *Supplément* de 1962. Plusieurs des nouveaux titres des groupes 24 à 47 sont le résultat de modifications qu'il a fallu apporter à la suite de l'adoption de la *Classification type révisée des industries* entrée en vigueur dans les rapports de 1960 sur les industries.

Là où de nouveaux titres ont nécessité le transfert des renseignements contenus dans d'autres publications, une explication du transfert est donnée dans une case qui paraît sur la page de titre. Toutes les nouvelles publications portent, la note «Premier numéro» sur la première de la série. Voir aussi page 186.

*** Title Changes**

Following is a list of title changes that have been made since the 1960 Catalogue of Current Publications and its 1962 Supplement were issued. Most of the changes in groups 24 to 47 were due to the adoption of the revised Standard Industrial Classification, effective with the issuance of 1960 Industry Reports. Notices of these changes were carried on the covers of the first issues of the affected publication. For purposes of identification, the old titles are shown in brackets following the new titles.

*** Titres modifiés**

Voici une liste des titres qui ont été modifiés depuis la publication du *Catalogue des publications courantes* de 1960 et de son *Supplément* de 1962. La plupart des changements dans les groupes 24 à 47 font suite à l'adoption de la Classification type révisée des industries appliquée dans les rapports de 1960 sur les industries. Les modifications ont été annoncées sur la couverture des premiers numéros des publications en cause. Pour les besoins de l'identification, les anciens titres sont indiqués entre parenthèses à la suite des nouveaux.

† Discontinued Titles

Following is a list of DBS publications that have been discontinued since the 1960 Catalogue of Current Publications and its 1962 Supplement were published. DBS adopted a revised Standard Industrial Classification, effective with the issuance of 1960 Industry Reports, which resulted in the rearrangement of the publishing programme.

Some publications in the 24 to 47 groups were discontinued and their contents transferred to other industries. In order to preserve continuity, the new catalogue numbers in which the data can be found are provided. This information, together with a notice of discontinuance, was carried on title pages of the publications involved at the time of transfer.

† Titres discontinués

Voici une liste des publications du B.F.S. qui ont été discontinuées depuis la publication du *Catalogue des publications courantes* de 1960 et de son *Supplément* de 1962. Le B.F.S. a adopté une Classification type révisée des industries qu'il a mise en vigueur à compter des rapports de 1960 sur les industries, ce qui a eu pour résultat le remaniement de son programme de publication.

Certaines publications des groupes 24 à 47 ont été discontinuées et leur contenu a été transféré à d'autres industries. Pour les besoins de la continuité, le numéro des nouvelles publications où l'on peut trouver les renseignements sont donnés. Ce renseignement ainsi qu'un avis de cessation, ont été donnés sur les pages de titre de publication en cause au moment du transfert.

Title, Subject and Commodity Index

Experience has shown that most users of DBS publications are interested in obtaining one or more of the following:

- (a) Specific DBS publications for which the titles are known;
- (b) Information on specific subjects;
- (c) Information on specific commodities.

This combined Title, Subject and Commodity Index has been designed to help users locate the required publications. It contains numerous cross-references. Numerical references are to catalogue numbers of the publications for which further descriptive information is provided in the main part of this catalogue. For English titles, all main words are capitalized.

While this index contains several thousand references to subject and commodity data, not all subjects and commodities covered in the Bureau's current publications are listed. Excluded are the commodities covered in export and import statistics, which are adequately indexed in Volume III of the Export and Import Commodity Classifications (Catalogue nos. 12-523 and 12-526).

Again, the detailed report "General Review of Manufacturing Statistics" (catalogue no. 31-201), contains a detailed alphabetical list of commodities manufactured in Canada, showing value and amount of production for the year covered. References to many of the commodities included in the General Review appear in this index in order to refer to the individual industry reports where they also appear; and users of this index may assume that 31-201 will apply in these cases.

In the case of other omissions, the entries for related items often afford a clue to where information, if available, may be found. Lastly, the Bureau's coverage is increasing and those who cannot locate what they seek should send an inquiry to the Information and Public Relations Division.

Index des titres et des matières

L'expérience a démontré que la plupart des utilisateurs des publications du B.F.S. désirent surtout:

- a) des publications particulières du B.F.S. dont les titres sont connus;
- b) des renseignements sur certains sujets;
- c) renseignements sur certaines denrées.

Cet Index général des titres et des matières a été conçu en vue d'aider les utilisateurs à trouver les publications qu'ils désirent. Il contient de nombreux recoupements. Les références numériques renvoient aux numéros de catalogue des publications au sujet desquelles la partie principale du catalogue donne des renseignements plus détaillés. Dans le cas des titres en anglais, tous les principaux sont en majuscules.

BUREAU FÉDÉRAL DE LA STATISTIQUE

Bien que l'Index contienne plusieurs milliers de références à des sujets et à des denrées, tous les sujets et toutes les denrées mentionnées dans les publications régulières du Bureau ne sont pas énumérés. Sont exclues les denrées qui paraissent dans la statistique des exportations et des importations, qui est suffisamment indexée dans le Volume III de *Export and Import Commodity Classifications* (n^{os} de catalogue 12-523 et 12-526).

En outre, le rapport détaillé intitulé *General Review of Manufacturing Statistics* (n^o de catalogue 31-201) contient une liste alphabétique des denrées fabriquées au Canada, qui donne, en outre, la valeur et le volume de la production pour l'année observée. Des références à de nombreuses denrées mentionnées dans la *General Review* paraissent dans le présent index afin d'indiquer les divers rapports sur les industries dans lesquelles elles paraissent aussi; les utilisateurs du présent index peuvent supposer que 31-201 s'appliquera dans ces cas.

Dans le cas d'autres omissions, les articles qui s'y apparente indiquent souvent où, s'ils existent, on peut trouver les renseignements. Finalement, le nombre de publications du Bureau augmente sans cesse et ceux qui ne trouvent pas ce qu'ils cherchent devront communiquer avec la Division de l'information et des relations extérieures.
